

REPORT TO GREAT CHART WITH SINGLETON PARISH COUNCIL MARCH 2026

At the time of writing this report I cannot be sure whether I will deliver it in person or the clerk will read it, as progress from my Hip replacement is slow and steady and I live day to day now as to what and how I can do.

Crime work is very much the same and very routine and a case of keeping on keeping on keeping people safe and secure. REPORTING IS KEY

There is good communication around now about Singleton Lake

I made a video for your clerks for 14th Feb.

I gave a presentation at a wonderful evening at Singleton W.I. (thank heavens for pain killers)

I am monitoring Fly Tipping

You know I have been preparing for the restart of Chilmington!

I met two site managers last week and new residents are now moving in and they are expecting a steady flow of newcomers so that will become a focus.

I was saddened to hear there had been thefts from the building sites during the stoppage of building. Even worse was no messages from the police at all to be able to put out alerts and warnings

STOP PRESS “CLOUDS ON THE HORIZON”

Naturally the fire person inside me is already preparing to warn of Fuel thefts from vehicles as costs and shortages occur.

1. Fuel thefts from storage tanks

2. Possibly the one that worries me most is the storage and transportation of petrol if a panic buying situation develops due to the world stage problems. A shed fire suddenly erupts into an inferno due to persons storing petrol with panic buying. I am sure I need say no more you all know how I think.

Regards

Peter
